This is in response to Papers filed on 01 March 2004.

I. The specification has been amended. Applicants state on the record that no new matter has been added.

II. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. J. Lanny Tucker on 15 March 2004.

AMENDMENT: Claims 1-8, 10-12 and 14-23 have been cancelled to put the application in a condition for an allowance.

III. The above suggested amendment and the newly added claims 24-38 being indicated to be allowable are all that is discussed.

IV. The following is an examiner's statement of reasons for allowance: Kramp et al (4,254,215) disclose, teach and suggest the use of compound 9 in column 13 having a mercapto group to inhibit sludge deposition in a black-and-white developing solution. The compound containing -paraphenylene- group is read within A group in the general formula II as broadly

disclosed in claims 1-8, 10-12 and 14-23. However, the newly added claims 24-38 are removed aromatic group in A group. Accordingly, claims 24-38 are allowable over Kramp et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
